

democide the leading cause of death  
for the people in the east and the people in the west  
up north, down south, 1 thing I know for sure  
the government is a virus and the people are the cure  
I dont know why we  
accept livin this way  
how do we not see  
that we been led astray  
no we are not free  
they violate our natural rights  
the time has come to take a stand  
my people we have to fight  
I dont know why we  
accept livin this way  
how do we not see  
that we been led astray  
no we are not free  
they violate our natural rights  
the time has come to take a stand  
my people we have to fight  
we gotta rise up  
its only right  
we gotta rise up  
with all our might  
we gotta rise up  
we must unite  
we gotta rise up  
its time to fight  
I will never trust the government  
i will never trust never trust them
